

Product Description:

Drilling holes in steel is no easy task. Drill speed, drill pressure and hole cutter design play a huge roll in successful hole cutting. Evergreen Tool Company has the expertise to assist you in choosing the most economical methods.

Evergreen Carbide Tip Annular Cutters:

The Evergreen carbide tip annular cutters are made for mild and harder steels without the need for any special coating. The high quality carbide tip annular cutters make holes quicker than twist drills with much longer tool life that equates to a lower operating cost. The two flat shank holds the cutter firmly in place. Precision ground teeth with the maximum material hardness of 450 BHN is plenty for most applications.

| Part No. | Description |
|----------|--------------------------|
| 1088 | Pilot |
| 1089 | Pilot for 1-1/16" Cutter |
| 1033 | Arbor and Hex Key |
| 705 | Lubricant Stick |

| Part No. | Size |
|----------|---------|
| 932 | 9/16" |
| 933 | 5/8" |
| 934 | 3/4" |
| 935 | 7/8" |
| 936 | 15/16" |
| 937 | 1" |
| 938 | 1-1/16" |

2" Depth of Cut
